DETAILED ACTION

Drawings

1. Drawings filed 04/05/06 have been accepted.
2. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

The following title is suggested: "METHOD AND APPARATUS FOR TRANSMISSION POWER CONTROL COMPENSATION BY INJECTION OF COMPENSATING SEQUENCE".

Allowable Subject Matter

3. Claims 65 and 67-119 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Regarding claims 65 and 96, the prior art of record teaches of a method and an apparatus of/for transmission power control.

The prior art of record fails to teach of **detecting oscillation in an uncompensated transmission power level corresponding to an established transmission power control command sequence; and, compensating the established transmission power control command sequence for the oscillation in the uncompensated transmission power level, comprising the step of injecting a compensating sequence into the established transmission power control command sequence.**

Claims 67-95 and 97-119 depend on claims 65 and 96; therefore, they are allowed for the same reasons as set forth above.

Art Unit: 2618

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
